Objective:

Detail-oriented MERN Stack Developer with strong foundations in Data Structures & Algorithms, seeking an opportunity in a growth-oriented technology company where I can build scalable web applications, optimize backend performance, and contribute efficient software solutions while continuously strengthening my technical expertise.

Education:

Bachelor of Technology – Computer Science & Engineering
Baderia Global Institute of Engineering & Management
2023 – 2027 | Current CGPA: 7.79 / 10

Class 12 (PCM)
St. Gabriel's Hr Sec School, Jabalpur
2023 | 82%

Projects & Experience:

AI-Assisted Stock Trading Simulator | https://github.com/apoorvsethi116/Stock-trading-app.git

- Developed a full-stack stock trading simulator using the MERN stack for beginners to practice trading with real-time market data
- Integrated live stock price APIs to simulate realistic buy/sell transactions and portfolio management
- Built an interactive dashboard to visualize portfolio performance, trade history, and profit/loss analytics

Tech Stack: MongoDB / Express.js / React.js / Node.js / Stock Market APIs

AI-Based Resume Ranking System

- Developed an AI-driven resume screening system using cosine similarity and semantic matching
- Applied NLP preprocessing, tokenization, and vector-based similarity scoring
- Designed a ranking engine to match resumes with job descriptions
- Designed scalable backend logic for automated resume evaluation

Tech Stack: Python / JavaScript / MongoDB / NLP Libraries

Deloitte Virtual Internship – Forage

- Completed Deloitte's consulting job simulation focused on business problem-solving
- Performed structured data analysis and case-based task execution
- Developed analytical documentation and professional reporting skills

Home Tutor – Infinity Coaching, Jabalpur

2023 – Present

- Mentored students using structured concept-driven learning
- Strengthened leadership and communication skills

Achievements & Certifications:

- National-level Hackathon Winner – BRAHMAX 1.0
- Deloitte Virtual Internship Certificate
- Tata's Data Visualisation: Empowering Business with Effective Insights Certificate

---

Co-curricular Activities:

- Active participation in Hackathons like Smart India Hackathon (SIH) & Technical Events
- Continuous practice of Data Structures & Algorithms and problem-solving
- Technical discussions and peer collaboration

Skills:

- **Programming languages:** Java, C++, JavaScript
- **Web & Backend:** HTML, CSS, React.js, Node.js, Express.js
- **Database:** MongoDB
- **Core CS:** Data Structures & Algorithms, OOP
- **Professional:** Analytical Thinking, Communication
